EDUCATION

Codify Academy

2015 - 2016

Front End Developer

University of California, Davis

2010 - 2014

B.S: Biochemistry and Molecular Biology

Sample Projects

<http://codepen.io/lewhat/pen/WwpXpx>

An Instagram API app that searches for Hashtags and displays the result.

<http://codepen.io/lewhat/pen/yOpLoG>

An angular JS app that helps me gather votes for a better motorcycle for me to purchase.

WORK EXPERIENCE

Assistant Mentor

Codify Academy, San Francisco, CA

March 2016 – Present

- Under supervision of the instructors and founders:
 - I help teach students with no prior experience with programming to learn HTML5, CSS3, and JavaScript

Logistics Coordinator

LUXE, San Francisco, CA

May 2015 – Present

- Under supervision of the Director of Operations:
 - Oversees live operations for multiple cities, including the management of hundreds of valets in the cities Luxe operates in: escalating and troubleshooting any issues that occur within each city, having responsibility for closing all remote cities and running the PM Rush, communicating between city operation teams and valets, and training new members of the logistics team.

Operations Assistant and Route Supervisor

ASUCD UNITRANS, DAVIS, CA

October 2011 – March 2015

- Under the supervision of the Unitrans Operations Manager:
 - Operations Assistant: Compiling, analyzing, and presenting data regarding daily service interruptions, creating work shifts via UNI website to allow employees to pick shifts independently, and inspecting the performance of other Route Supervisors.
 - Route Supervisor: Constructing and orchestrating in-service re-routes in the event of street closures and obstructions, supervising driver check-ins, dispatching tripper buses as necessary to alleviate crowding and late buses, ensuring the efficient and safe operation of up to 40 revenue service buses at any given time, communicating instructions to the Road Supervisor and drivers via radio, and printing, sorting and filing service-related paperwork.
 - Other duties include: troubleshooting and fixing major and minor bus problems; responding to the scene of accidents, documenting alleged accidents and handling the appropriate paperwork, responding to and cleaning up hazmat related spills on and around transit vehicles, performing driver observations, fueling revenue service vehicles as necessary, and responding and assisting in the removal of unruly passengers from transit vehicles.

Medical Assistant Intern

Sutter memorial Hospital PACU, Sacramento, CA

January 2010 – June 2010

- Under the supervision of the unit's nurses and doctors:
 - Assisted the nurses with various tasks, checked and recorded patients' vital signs, cleaned and organized empty bed areas for new patients, stocked medical supplies.
